

# Contents

<b>Videos</b> .....	xii
<b>Foreword</b> .....	xiii
<b>Preface</b> .....	xv
<b>Contributors</b> .....	xvii
 <b>Section I: Complications Prevention Essentials</b>	
<b>1 General Approach: The Consultation—Patient Evaluation</b> .....	3
<i>Eric T. Carniol</i>	
1.1 Introduction .....	3
1.2 Assessment of Expectations .....	4
1.3 Assessment for Body Dysmorphic Disorder .....	4
1.4 Accurate History Taking .....	4
1.5 Preoperative Counseling .....	5
1.6 Conclusion .....	5
<b>2 Anesthesia for Minimally Invasive Facial Aesthetic Surgery</b> .....	7
<i>Seden Akdagli, Dennis P. Dimaculangan, George Ferzli, and Sydney C. Butts</i>	
2.1 The Office-Based Surgery Setting ..	7
2.2 Preprocedure Preparation .....	7
2.3 Local Anesthesia .....	8
2.3.1 Topical Local Anesthesia .....	9
2.3.2 Subcutaneous or Tissue Infiltration ..	9
2.3.3 Regional Nerve Blocks .....	10
2.3.4 Tumescent Anesthesia .....	11
2.3.5 Cryoanesthesia .....	11
2.3.6 Oral Sedation .....	12
2.3.7 Monitored Anesthesia Care .....	12
2.4 Laser-Anesthesia Complications ...	12
2.4.1 Fire .....	12
2.5 Recovery and Discharge .....	13
2.6 Conclusion .....	13
<b>3 Anatomy</b> .....	15
<i>Kaete A. Archer</i>	
3.1 Introduction .....	15
3.2 Skin Anatomy .....	15
3.2.1 Epidermis .....	15
3.2.2 Dermis .....	15
3.3 Forehead Anatomy .....	16
3.3.1 Central Forehead and Glabella .....	16
3.3.2 Temporal Fossa .....	18
3.4 Periorbital Anatomy .....	20
3.4.1 Upper and Lower Eyelids .....	20
3.4.2 Eyebrows .....	23
3.5 Midface .....	24
3.5.1 Lid/Cheek Junction .....	24
3.5.2 Cheek .....	26

<b>3.6</b>	<b>Nasal Anatomy</b> .....	30	<b>3.7</b>	<b>Facial Nerve Branches</b> .....	33
3.6.1	Skin–Soft Tissue Envelope .....	30	3.7.1	Frontal Branch .....	33
3.6.2	Deep .....	30	3.7.2	Zygomatic Branch .....	33
			3.7.3	Buccal Branch .....	33
			3.7.4	Marginal Branch .....	33
			3.7.5	Cervical Branch .....	34
<b>4</b>	<b>Plumes, Laser/Cautery</b> .....				
	<i>Daniel A. Yanes and Mathew M. Avram</i>				
<b>4.1</b>	<b>Introduction</b> .....	36	<b>4.3</b>	<b>Organic Contents of the Plume</b> .....	37
<b>4.2</b>	<b>Inorganic Contents of the Plume</b> .....	36	<b>4.4</b>	<b>Protective Strategies</b> .....	38
<b>Section II: Injectables: Avoiding and Managing Complications</b>					
<b>5</b>	<b>Fillers</b> .....				
	<i>Helen M. Moses, Louis M. DeJoseph, and Nikunj Rana</i>				
<b>5.1</b>	<b>Introduction</b> .....	43	<b>5.5</b>	<b>Inflammatory Reactions</b> .....	47
<b>5.2</b>	<b>General Principles</b> .....	43	5.5.1	Allergic Reactions and HA Hypersensitivity .....	47
5.2.1	Patient-Related Factors .....	43	5.5.2	Acute Infection .....	47
5.2.2	Product-Related Factors .....	44	<b>5.6</b>	<b>Vascular Events</b> .....	47
5.2.3	Technique-Related Factors .....	44	5.6.1	Anatomic Considerations and Mechanisms .....	48
5.2.4	Pretreatment Prophylaxis .....	45	5.6.2	Technique .....	48
<b>5.3</b>	<b>Adverse Reactions and Complications</b> .....	45	5.6.3	Identification .....	49
<b>5.4</b>	<b>Early Adverse Reactions and Management of Complications</b> .....	45	5.6.4	Treatment and Management of Vascular Compromise .....	50
5.4.1	Bruising .....	45	<b>5.7</b>	<b>Specific Considerations</b> .....	51
5.4.2	Edema .....	45	5.7.1	Blindness .....	51
5.4.3	Placement Related: Inappropriate Placement and Depth, Overcorrection .....	46	<b>5.8</b>	<b>Delayed Adverse Reactions and Management of Complications</b> .....	52
5.4.4	A Tool for Management of Early Adverse Events: Use of Blunt-Tip Cannula .....	46	5.8.1	Noninflammatory Nodules .....	52
			5.8.2	Inflammatory Reactions Including Infection and Granuloma Formation .....	52
<b>6</b>	<b>Fat Transfers</b> .....				
	<i>Stephen E. Metzinger and Rebecca C. Metzinger</i>				
<b>6.1</b>	<b>Introduction</b> .....	55	<b>6.3</b>	<b>Vascular Occlusion</b> .....	55
<b>6.2</b>	<b>Risks and Complications</b> .....	55	<b>6.4</b>	<b>Atypical Infections</b> .....	57

6.5	<b>Fat Necrosis</b> . . . . .	58	6.7	<b>Conclusion</b> . . . . .	61
6.6	<b>Treatment of Facial Fat Necrosis</b> . . . . .	60			
<b>7</b>	<b>Neuromodulators for Muscle Induced Wrinkles</b> . . . . .	62			
	<i>Timothy M. Greco, Lisa Coppa-Breslauer, and Jason E. Cohn</i>				
7.1	<b>Introduction</b> . . . . .	62	7.4	<b>Lower Face</b> . . . . .	76
7.2	<b>Upper Face</b> . . . . .	62	7.5	<b>Neck</b> . . . . .	84
7.3	<b>Midface</b> . . . . .	73			
<b>8</b>	<b>Deoxycholic Acid</b> . . . . .	88			
	<i>Aubriana M. McEvoy, Basia Michalski, and Rachel L. Kylo</i>				
8.1	<b>Description of Technology/ Procedures</b> . . . . .	88	8.2.5	Common Complications . . . . .	89
8.1.1	Introduction . . . . .	88	8.2.6	Complications: Nerve Injury . . . . .	91
8.1.2	Mechanism of Action . . . . .	88	8.2.7	Complications: Skin Ulceration and Necrosis . . . . .	92
8.2	<b>Optimizing Use and Avoiding Complications</b> . . . . .	88	8.2.8	Complications: Dysphagia . . . . .	93
8.2.1	Clinical Trials . . . . .	88	8.2.9	Complications: Alopecia . . . . .	93
8.2.2	Determination of Ideal Patient . . . . .	88	<b>8.3</b>	<b>Early Identification of Complications</b> . . . . .	93
8.2.3	Assessing Preplatysmal Fat . . . . .	89	<b>8.4</b>	<b>Managing Complications</b> . . . . .	93
8.2.4	Proper Injection Technique . . . . .	89	<b>8.5</b>	<b>Conclusion</b> . . . . .	95
<b>Section III: High Energy Devices: Avoiding and Managing Complications</b>					
<b>9</b>	<b>Laser Resurfacing</b> . . . . .	99			
	<i>E. Victor Ross</i>				
9.1	<b>Introduction</b> . . . . .	99	9.5	<b>Nonfractional Ablative Treatment</b> . . . . .	103
9.2	<b>Key Points for Maximizing Safety with Lasers and Other Energy Devices</b> . . . . .	99	9.6	<b>Key Points for Maximizing Safety in the Eye Area</b> . . . . .	104
9.3	<b>Key Points for Maximizing Safety with Shallower-Penetrating Lasers and Energy Devices</b> . . . . .	99	9.7	<b>Key Points for Maximizing Safety in the Perioral/Cheek Area</b> . . . . .	106
9.4	<b>Fractional Laser Systems</b> . . . . .	99	9.8	<b>Key Points for Maximizing Safety in Different Skin Types</b> . . . . .	107
9.4.1	Nonablative Fractional Laser Systems . . . . .	101	9.9	<b>Ethnic Skin</b> . . . . .	107
9.4.2	Microneedling and RF Pins/Needles . . . . .	102	9.10	<b>Tanned/Solar-Damaged Skin</b> . . . . .	108
			9.11	<b>X-Irradiated Skin</b> . . . . .	108
<b>10</b>	<b>Chemical Peels</b> . . . . .	111			
	<i>Sidney J. Starkman and Devinder S. Mangat</i>				
10.1	<b>Background</b> . . . . .	111	10.2	<b>Patient Selection</b> . . . . .	111

<b>10.3</b>	<b>Preoperative Guidelines</b> . . . . .	111	<b>10.7</b>	<b>Scarring</b> . . . . .	113
<b>10.4</b>	<b>Complication Prevention</b> . . . . .	112	10.7.1	Infection . . . . .	113
<b>10.5</b>	<b>Infection Prophylaxis</b> . . . . .	112	10.7.2	Erythema and Hyperpigmentation . . . . .	114
<b>10.6</b>	<b>Complication Management</b> . . . . .	113	10.7.3	Hypopigmentation . . . . .	114
10.6.1	Delayed Reepithelialization . . . . .	113	10.7.4	Cardiac Arrhythmia . . . . .	114
<b>11</b>	<b>Vascular and Pigment Laser and Light Sources</b> . . . . .	116	<b>10.8</b>	<b>Conclusion</b> . . . . .	114
	<i>Elizabeth F. Rostan</i>				
<b>11.1</b>	<b>Vascular and Pigment Laser and Light Sources</b> . . . . .	116	11.2.1	Nanosecond and Picosecond Lasers (1,064 nm, 755 nm, 532 nm) . . . . .	120
11.1.1	Laser Treatment of Vascular Lesions . . . . .	116	11.2.2	Long-Pulsed Lasers (532 nm, 595 nm, 755 nm, 800–890 nm, 1,064 nm) . . . . .	121
11.1.2	Choice of Device—Wavelength and Pulse Duration . . . . .	116	11.2.3	Light Sources . . . . .	121
11.1.3	Enhancing Outcomes in the Treatment of Vascular Lesions . . . . .	117	11.2.4	Pigment Nonspecific Lasers . . . . .	122
<b>11.2</b>	<b>Laser Treatment of Pigmented Lesions</b> . . . . .	120	11.2.5	Combination of Lasers . . . . .	122
			<b>11.3</b>	<b>Managing Complications from Laser Treatment of Vascular and Pigmented Lesions</b> . . . . .	125
			<b>11.4</b>	<b>Conclusion</b> . . . . .	125
<b>12</b>	<b>Radiofrequency and Microneedle Radiofrequency</b> . . . . .	127			
	<i>Steven F. Weiner</i>				
<b>12.1</b>	<b>Introduction</b> . . . . .	127	12.7.2	Postinflammatory Hyperpigmentation (PIH) . . . . .	129
<b>12.2</b>	<b>Science of RF</b> . . . . .	127	12.7.3	Second-Degree Burn . . . . .	129
<b>12.3</b>	<b>Neocollagenesis</b> . . . . .	127	12.7.4	Fat Loss . . . . .	129
<b>12.4</b>	<b>Methods of RF Delivery</b> . . . . .	127	12.7.5	Textural Abnormalities . . . . .	129
<b>12.5</b>	<b>Safety Measures</b> . . . . .	128	12.7.6	Acne Flair/Infection . . . . .	130
<b>12.6</b>	<b>Patient Selection</b> . . . . .	128	12.7.7	Dysesthesia/Neuropraxia . . . . .	130
<b>12.7</b>	<b>Complications</b> . . . . .	128	12.7.8	Seroma/Cyst . . . . .	130
12.7.1	Prolonged Swelling, Erythema, Discomfort . . . . .	128	<b>12.8</b>	<b>Conclusion</b> . . . . .	130
<b>13</b>	<b>Complications of Platelet-Rich Plasma and Microneedling</b> . . . . .	131			
	<i>Amit Arunkumar, Anthony P. Sclafani, and Paul J. Carniol</i>				
<b>13.1</b>	<b>Platelet-Rich Plasma—An Introduction</b> . . . . .	131	<b>13.3</b>	<b>Microneedling—An Introduction</b> . . . . .	134
<b>13.2</b>	<b>Platelet-Rich Plasma—Avoiding, Identifying, and Managing Complications</b> . . . . .	133	<b>13.4</b>	<b>Microneedling—Avoiding, Identifying, and Managing Complications</b> . . . . .	134

## Section IV: Lipo Reduction: Avoiding and Managing Complications

<b>14</b>	<b>Liposuction</b> .....	139		
	<i>Brandon Worley and Murad Alam</i>			
<b>14.1</b>	<b>Background</b> .....	139	<b>14.3.8</b>	<b>Liposuction of Other Body Sites</b> . . . . . 151
<b>14.2</b>	<b>Preoperative Evaluation</b> .....	139	<b>14.4</b>	<b>Postoperative Considerations</b> .....
14.2.1	Physical Examination and Laboratory Evaluation .....	140	<b>14.5</b>	<b>Minimizing Risks</b> .....
14.2.2	Anesthetic Planning .....	141	<b>14.6</b>	<b>Management of Complications</b> . . . . . 152
14.2.3	Selecting the Right Tools to Optimize Aesthetic Results .....	142	14.6.1	Pain and Edema .....
<b>14.3</b>	<b>Procedure</b> .....	144	14.6.2	Vascular Complications .....
14.3.1	Cannulas .....	144	14.6.3	Suboptimal Aesthetic Outcomes . . . . . 154
14.3.2	General Principles of Surgical Technique .....	144	14.6.4	Perforation Injury .....
14.3.3	Malar Fat Pad and Cheek Contouring .....	147	14.6.5	Intravascular Volume Redistribution .....
14.3.4	Treatment of the Nasolabial Fold and Pretragal Sulcus .....	147	14.6.6	Nerve Injury .....
14.3.5	Treatment of the Jowl .....	147	14.6.7	Infection .....
14.3.6	Submental Liposuction .....	149	14.6.8	Seroma .....
14.3.7	Facial and Periorbital Autologous Fat Transfer .....	150	14.6.9	Delayed Improvement .....
			14.6.10	Lidocaine Toxicity .....
<b>15</b>	<b>Cryolipolysis</b> .....	160	<b>14.7</b>	<b>Conclusions</b> .....
	<i>Aria Vazirnia and Mathew M. Avram</i>			
<b>15.1</b>	<b>Introduction</b> .....	160	<b>15.6</b>	<b>Miscellaneous Complications in Cryolipolysis</b> .....
<b>15.2</b>	<b>Cryolipolysis Mechanism of Action</b> ..	160	<b>15.7</b>	<b>Introduction to ATX-101</b> .....
<b>15.3</b>	<b>Safety Profile of Cryolipolysis</b> .....	160	<b>15.8</b>	<b>Safety Profile of ATX-101</b> .....
<b>15.4</b>	<b>Paradoxical Adipose Hyperplasia in Cryolipolysis</b> .....	161	<b>15.9</b>	<b>Marginal Mandibular Nerve Injury with ATX-101</b> .....
<b>15.5</b>	<b>Delayed Post-treatment Pain in Cryolipolysis</b> .....	162	<b>15.10</b>	<b>Vascular Complications in ATX-101</b> ..
			<b>15.11</b>	<b>Conclusion</b> .....

## Section V: Minimally Invasive Surgery: Avoiding and Managing Complications

<b>16</b>	<b>Thread Lift</b> .....	167		
	<i>Kian Karimi</i>			
<b>16.1</b>	<b>Introduction</b> .....	167	<b>16.3</b>	<b>PDO Threads</b> .....
<b>16.2</b>	<b>Complications</b> .....	168		

<b>16.4</b>	<b>Prevention of Complications Utilizing PDO Threads</b> . . . . .	173	<b>16.5</b>	<b>Management of Complications</b> . . . . .	176
16.4.1	Patient Selection . . . . .	173	16.5.1	Bruising . . . . .	176
16.4.2	Patient Informed Consent . . . . .	174	16.5.2	Mild-to-Moderate Puckering/Irregularity . . . . .	176
16.4.3	Treatment Protocols . . . . .	174	16.5.3	Severe Puckering/Irregularity of Superficial Placement of Threads . . . . .	177
16.4.4	Posttreatment Instructions and Protocols . . . . .	176	16.5.4	Infection . . . . .	178
			<b>16.6</b>	<b>Conclusion</b> . . . . .	178
<b>17</b>	<b>SMAS Lift</b> . . . . .	181			
	<i>Phillip R. Langsdon and Ronald J. Schroeder II</i>				
<b>17.1</b>	<b>Introduction</b> . . . . .	181	<b>17.4</b>	<b>Complications</b> . . . . .	188
<b>17.2</b>	<b>Indications and Patient Selection</b> . . . . .	181	17.4.1	Minimizing Risk and Complications . . . . .	188
<b>17.3</b>	<b>Surgical Technique</b> . . . . .	182	17.4.2	Early Identification of Complications . . . . .	189
17.3.1	Procedure Details . . . . .	182	17.4.3	Management of Complications . . . . .	190
17.3.2	Optimizing Results . . . . .	188			
<b>18</b>	<b>Hair Transplantation</b> . . . . .	192			
	<i>Alfonso Barrera and Christian Arroyo</i>				
<b>18.1</b>	<b>Introduction</b> . . . . .	192	18.3.2	Grafts Too Large (Too Many Hairs Per Graft) Giving a Clumpy (Pluggy) Appearance . . . . .	196
<b>18.2</b>	<b>Current Hair Transplantation Technique</b> . . . . .	193	18.3.3	Scarring Alopecia of the Donor Site . . . . .	199
<b>18.3</b>	<b>Unfavorable Results in Hair Transplantation</b> . . . . .	196	18.3.4	Poor Hair Growth After Hair Transplantation . . . . .	201
18.3.1	Hairline that is Too Low and/or Too Straight . . . . .	196	<b>18.4</b>	<b>Conclusion</b> . . . . .	202
<b>19</b>	<b>Blepharoplasty</b> . . . . .	203			
	<i>Fred G. Fedok and Sunny S. Park</i>				
<b>19.1</b>	<b>Introduction</b> . . . . .	203	19.3.2	Lower Eyelid Blepharoplasty Complications . . . . .	209
<b>19.2</b>	<b>Patient Evaluation</b> . . . . .	203	19.3.3	Uncommon/Catastrophic Blepharoplasty Complications . . . . .	209
<b>19.3</b>	<b>Common Postoperative Problems: Their Avoidance and Correction</b> . . . . .	203	<b>19.4</b>	<b>Conclusion</b> . . . . .	211
19.3.1	Upper Eyelid Blepharoplasty Complications . . . . .	203			
	<b>Index</b> . . . . .	213

# Videos

- Video 9.1:** Note feather touch mode with Acupulse Surgitouch scanner being applied to right forehead on patient.
- Video 10.1:** Application of phenol-croton oil deep peel in the perioral region, achieving a level 3 frost.
- Video 11.1:** Long pulsed 1064 nm laser with forced-air cooling treatment of small leg veins showing immediate vessel reaction with contraction and disappearance.
- Video 11.2:** Cryogen cooled 595-nm pulsed dye laser treatment with immediate tissue reaction.
- Video 11.3:** Pulse stacking technique with cryogen cooled 595 nm pulsed dye laser in nasal ala area for small telangiectasias.
- Video 11.4:** Q-switched 532 nm laser for pigment showing immediate mild whitening of target and demonstrating mild snapping sound.
- Video 11.5:** Low energy Q-switched 1064 nm laser technique for melasma.
- Video 11.6:** Long pulsed alexandrite being used with no cooling to treat solar lentigo.
- Video 13.1:** Radiofrequency microneedling can be seen.
- Video 16.1:** Video of biostimulatory thread placement technique 1.
- Video 16.2:** Video of biostimulatory thread placement technique 2.
- Video 16.3:** Lifting thread placement technique 1.
- Video 16.4:** Lifting thread placement technique 2.
- Video 16.5:** Thread Pucker Redraping.
- Video 16.6:** Thread trimming technique 1.
- Video 16.7:** Thread trimming technique 2.
- Video 16.8:** PDO thread removal with fine pickups.
- Video 18.1:** How to do step-by-step safe hair transplantation.
- Video 19.1:** Dr. Fedok demonstrates upper blepharoplasty.
