Anatomy and Physiology

1	Gross Anatomy, Cranial and Spinal	58
1.1	Cortical surface anatomy	58
1.2	Central sulcus on axial imaging	60
1.3	Surface anatomy of the cranium	62
1.4	Surface landmarks of spine levels	64
1.5	Cranial foramina and their contents	65
1.6	Internal capsule	67
1.7	Cerebellopontine angle anatomy	67
1.8	Occipitoatlantoaxial-complex anatomy	68
1.9	Spinal cord anatomy	70
2	Vascular Anatomy	74
2.1	Cerebral vascular territories	74
2.2	Cerebral arterial anatomy	74
2.3	Cerebral venous anatomy	86
2.4	Spinal cord vasculature	89
3	Neurophysiology and Regional Brain Syndromes	92
3.1	Neurophysiology	92
3.2	Regional brain syndromes	100
3.3	Jugular foramen syndromes	104

General and Neurology

4	Neuroanesthesia	108
4.1	ASA classification	108
4.2	Neuroanesthesia parameters	108
4.3	Drugs used in neuroanesthesia	109
4.4	Anesthetic requirements for intraoperative evoked potential monitoring	112
4.5	Malignant hyperthermia	112
5	Sodium Homeostasis and Osmolality	114
5.1	Serum osmolality and sodium concentration	114
5.2	Hyponatremia	114
5.3	Hypernatremia	123

6	General Neurocritical Care	130
6.1	Parenteral agents for hypertension	130
6.2	Hypotension (shock)	131
6.3	Acid inhibitors	133
6.4	Rhabdomyolysis	135
7	Sedatives, Paralytics, Analgesics	138
7.1	Sedatives	138
7.2	Paralytics (neuromuscular blocking agents)	140
7.3	Analgesics	142
8	Endocrinology	149
8.1	Pituitary embryology and neuroendocrinology	149
8.2	Corticosteroids	151
8.3	Hypothyroidism	155
9	Hematology	158
9.1	Circulating blood volume	158
9.2	Blood component therapy	158
9.3	Anticoagulation considerations in neurosurgery	161
9.4	Extramedullary hematopoiesis	178
10	Neurology for Neurosurgeons	180
10.1	Dementia	180
10.2	Headache	180
10.3	Parkinsonism	182
10.4	Multiple sclerosis	185
10.5	Acute disseminated encephalomyelitis	189
10.6	Motor neuron diseases	189
10.7	Guillain-Barré syndrome	190
10.8	Myelitis	193
10.9	Neurosarcoidosis	195
11	Neurovascular Disorders and Neurotoxicology	198
11.1	Posterior reversible encephalopathy syndrome (PRES)	198
11.2	Crossed cerebellar diaschisis	198
11.3	Vasculitis and vasculopathy	199
11.4	Neurotoxicology	208

Imaging and Diagnostics

12	Plain Radiology and Contrast Agents	216
12.1	C-Spine X-rays	216
12.2	Lumbosacral (LS) spine X-rays	221
12.3	Skull X-rays	221
12.4	Contrast agents in neuroradiology	223
12.5	Radiation safety for neurosurgeons	228
13	Imaging and Angiography	231
13.1	CAT scan (AKA CT scan)	231
13.2	Pregnancy and CT scans	232
13.3	Magnetic resonance imaging (MRI)	232
13.4	Angiography	240
13.5	Myelography	240
13.6	Radionuclide scanning	240
13.7	DOTATATE scans	241
14	Electrodiagnostics	242
14.1	Electroencephalogram (EEG)	242
14.2	Evoked potentials	242
14.3	NCS/EMG	247

Developmental Anomalies

15	Primary Intracranial Developmental Anomalies	252
15.1	Arachnoid cysts, intracranial	252
15.2	Craniofacial development	256
15.3	Dandy Walker malformation	262
15.4	Aqueductal stenosis	265
15.5	Agenesis of the corpus callosum (ACC)	267
15.6	Absence of the septum pellucidum	268
15.7	Intracranial lipomas	268
15.8	Hypothalamic hamartomas	269
16	Primary Spinal Developmental Anomalies	271
16.1	Spinal arachnoid cysts	271
16.2	Spinal dysraphism (spina bifida)	271
16.3	Failure of vertebral segmentation and formation	280
16.4	Klippel-Feil syndrome	281

32 Contents

16.5	Tethered cord syndrome	282
16.6	Split cord malformation	284
16.7	Lumbosacral nerve root anomalies	285
17	Primary Craniospinal Anomalies	286
17.1	Chiari malformations	286
17.2	Neural tube defects	300
17.3	Neurenteric cysts	306
Coma and Brain Death/Death by Neurologic Criteria (BD/DNC)		
18	Coma	310
18.1	Coma and coma scales	310
18.2	Posturing	311
18.3	Etiologies of coma	311
18.4	Herniation syndromes	316
19	Brain Death/Death by Neurologic Criteria (BD/DNC) and Organ Donation	321
19.1	Brain death/death by neurologic criteria (BD/DNC)	321
19.2	Criteria for BD/DNC	321
19.3	Pitfalls in BD/DNC determination	328
19.4	Pregnancy and BD/DNC	328
19.5	Management after the declaration of BD/DNC	329
19.6	Organ and tissue donation	329
Infection		
20	Bacterial Infections of the CNS Parenchyma/Meninges and Complex Infections	334
20.1	Meningitis	334
20.2	Cerebral abscess	336
20.3	Subdural empyema	344
20.4	Tuberculosis of the CNS (neurotuberculosis)	347
20.5	Lyme disease—neurologic manifestations	354
21	Non Bacterial Infections of the CNS	356
21.1	Aseptic meningitis	356
21.2	Encephalitis	356
21.3	Neurologic involvement in HIV/AIDS	359

22	Other Nonbacterial Infections	365
22.1	Creutzfeldt-Jakob disease	365
22.2	Parasitic infections of the CNS	369
22.3	Fungal infections of the CNS	376
22.4	Amebic infections of the CNS	378
23	Skull, Spine, and Post-Surgical Infections	380
23.1	Shunt infection	380
23.2	External ventricular drain (EVD)-related infection	383
23.3	Wound infections	386
23.4	Osteomyelitis of the skull	390
23.5	Spine infections	390
Hydrocephalus and Cerebrospinal Fluid (CSF)		
24	Cerebrospinal Fluid	406
24.1	General CSF characteristics	406
24.2	Bulk flow model	406
24.3	CSF constituents	407
24.4	Cranial CSF fistula	407
24.5	Spinal CSF fistula	410
24.6	Meningitis in CSF fistula	410
24.7	Evaluation of the patient with CSF fistula	410
24.8	Treatment for CSF fistula	412
24.9	Spontaneous intracranial hypotension (SIH)	413
25	Hydrocephalus – General Aspects	418
25.1	Basic definition: HCP	418
25.2	Epidemiology: HCP	418
25.3	Etiologies of hydrocephalus	418
25.4	Signs and symptoms of HCP	419
25.5	Imaging diagnosis of hydrocephalus	423
25.6	Differential diagnosis of hydrocephalus	425
25.7	External hydrocephalus (AKA benign external hydrocephalus)	425
25.8	X-linked hydrocephalus	426
25.9	“Arrested hydrocephalus” in pediatrics	427
25.10	Entrapped fourth ventricle	428
25.11	Chronic hydrocephalus in adults (CHiA)	429
25.12	Idiopathic NPH (iNPH) - AKA Hakim’s disease	431
25.13	Hydrocephalus and pregnancy	441

26	Treatment of Hydrocephalus	443
26.1	Medical treatment of hydrocephalus	443
26.2	Spinal taps	443
26.3	Surgical	443
26.4	Endoscopic third ventriculostomy	444
26.5	Shunts	445
26.6	Shunt problems	449
26.7	Specific shunt systems	458
26.8	Surgical insertion techniques	466
26.9	Instructions to patients	466
Seizures		
27	Seizure Classification and Syndromes	468
27.1	Seizure definitions and classification	468
27.2	Epilepsy syndromes	470
28	Antiseizure Medication (ASM)	473
28.1	General information: ASM	473
28.2	Antiseizure medications (ASM) for various seizure types	473
28.3	Antiseizure medication pharmacology	475
28.4	Withdrawal of antiseizure medications	487
28.5	Pregnancy and antiseizure medications	488
29	Special Seizure Considerations	491
29.1	New onset seizures	491
29.2	Post-traumatic seizures	492
29.3	Alcohol withdrawal seizures	494
29.4	Nonepileptic seizures (NES)	495
29.5	Febrile seizures	497
29.6	Status epilepticus	498
Pain		
30	Pain	504
30.1	Major types of pain	504
30.2	Neuropathic pain syndromes	504
30.3	Craniofacial pain syndromes	505
30.4	Postherpetic neuralgia	508
30.5	Complex regional pain syndrome (CRPS)	511

Peripheral Nerves

31	Peripheral Nerves	516
31.1	Peripheral nerves – definitions and grading scales.	516
31.2	Muscle innervation	517
31.3	Peripheral nerve injury/surgery	521
32	Entrapment Neuropathies	527
32.1	Entrapment neuropathy – definitions and associations	527
32.2	Mechanism of injury	527
32.3	Occipital nerve entrapment	527
32.4	Median nerve entrapment	529
32.5	Ulnar nerve entrapment.	540
32.6	Radial nerve injuries	545
32.7	Axillary nerve injuries	547
32.8	Suprascapular nerve	547
32.9	Meralgia paresthetica	548
32.10	Obturator nerve entrapment	550
32.11	Femoral nerve entrapment.	550
32.12	Common peroneal nerve palsy	550
32.13	Tarsal tunnel	552
33	Non-Entrapment Peripheral Neuropathies	554
33.1	General information: non-entrapment peripheral neuropathies	554
33.2	Etiologies of peripheral neuropathy	554
33.3	Classification: non-entrapment peripheral neuropathies	554
33.4	Clinical: non-entrapment peripheral neuropathies.	555
33.5	Syndromes of peripheral neuropathy	555
33.6	Peripheral nerve injuries	563
33.7	Missile injuries of peripheral nerves	566
33.8	Thoracic outlet syndrome	567

Neuro-ophthalmology and Neurotology

34	Neuro-ophthalmology	570
34.1	Nystagmus	570
34.2	Papilledema	570
34.3	Visual fields.	572
34.4	Pupillary diameter.	574
34.5	Extraocular muscle (EOM) system.	579

36 Contents

34.6	Neuro-ophthalmologic syndromes	584
34.7	Miscellaneous neuro-ophthalmologic signs	585
35	Neurotology	586
35.1	Dizziness and vertigo	586
35.2	Meniere disease	587
35.3	Facial nerve palsy	590
35.4	Hearing loss	594
Tumors of the Nervous and Related Systems		
36	Tumor Classification and General Information	598
36.1	WHO classification of tumors of the nervous system	598
36.2	Brain tumors—general clinical aspects	603
36.3	Pediatric brain tumors.	607
36.4	Management of the patient with a brain tumor	608
36.5	Chemotherapy agents for brain tumors	609
36.6	Adjunctive treatment measures for brain tumors	610
36.7	Intraoperative pathology consultation (IOC)	611
36.8	Select commonly utilized conventional and immunohistochemical stains in neuropathology	614
37	Genetic Tumor Syndromes Involving the CNS.	620
37.1	General information: genetic tumor syndromes involving the CNS.	620
37.2	Neurofibromatosis	620
37.3	Other genetic tumor syndromes involving the CNS.	627
38	Adult Diffuse Gliomas.	637
38.1	Incidence: adult diffuse gliomas.	637
38.2	Risk factors for diffuse gliomas	637
38.3	General features of gliomas	637
38.4	Adult-type diffuse gliomas.	638
38.5	Treatment for adult-type diffuse gliomas	648
39	Pediatric-type Diffuse Tumors	657
39.1	Pediatric-type diffuse low-grade gliomas	657
39.2	Pediatric-type diffuse high-grade gliomas	660
40	Circumscribed Astrocytic Gliomas	667
40.1	General meaning of “circumscribed”	667

40.2	Pilocytic astrocytomas (PCAs) (WHO grade 1)	667
40.3	High-grade astrocytoma with piloid features (HGAP) (WHO grade N/A) . . .	676
40.4	Pleomorphic xanthoastrocytoma (PXA) (WHO grade 2 or 3)	677
40.5	Subependymal giant cell astrocytoma (SEGA) (WHO grade 1)	679
40.6	Chordoid glioma (WHO grade 2)	680
40.7	Astroblastoma, MN1-altered (WHO grade 1)	681
41	Glioneuronal and Neuronal Tumors	683
41.1	Glioneuronal tumors	683
41.2	Neuronal tumors	694
42	Ependymal Tumors	700
42.1	Introduction to ependymal tumors	700
42.2	Specific tumor types	700
43	Choroid Plexus Tumors	714
43.1	General information	714
43.2	Choroid plexus tumor types	714
44	Embryonal Tumors	718
44.1	General information for embryonal tumors	718
44.2	Medulloblastoma (a subset of embryonal tumors), general aspects	718
44.3	Medulloblastomas by definition criteria	722
44.4	CNS embryonal tumors other than medulloblastoma	728
45	Pineal Tumors and Pineal Region Lesions	732
45.1	Pineal region lesions	732
45.2	Pineal tumors	736
46	Cranial and Paraspinal Nerve Tumors	741
46.1	General information: cranial and paraspinal nerve tumors	741
46.2	Specific cranial and paraspinal nerve tumors	741
46.3	Vestibular schwannoma	749
47	Meningiomas (Intracranial)	772
47.1	General information: meningiomas	772
47.2	Meningioma tumor types	772

48	Mesenchymal, Non-meningothelial Tumors	788
48.1	General information: mesenchymal, non-meningothelial tumors.	788
48.2	Fibroblastic and myofibroblastic tumors	788
48.3	Vascular tumors	789
48.4	Notochordal tumors	793
49	Melanocytic Tumors and CNS Germ Cell Tumors	797
49.1	Melanocytic tumors	797
49.2	Germ cell tumors of the CNS	800
50	Hematolymphoid Tumors Involving the CNS	808
50.1	CNS lymphomas	808
50.2	Histiocytic tumors	814
51	Tumors of the Sellar Region	816
51.1	General information: tumors of the sellar region	816
51.2	Sellar region tumors of non pituitary origin	816
51.3	Tumors of the neurohypophysis & infundibulum.	820
51.4	Tumors of the adenohypophysis	823
52	PitNETs – Clinical Considerations	827
52.1	General information: PitNETs.	827
52.2	Diagnostic criteria and classification of PitNETs.	827
52.3	Epidemiology/pathology: PitNETs	827
52.4	Differential diagnosis of pituitary tumors.	829
52.5	Clinical presentation of pituitary tumors	829
52.6	Specific types of pituitary tumors	832
53	Pituitary Tumors – Evaluation	841
53.1	History and physical: pituitary tumors	841
53.2	Diagnostic tests: pituitary tumors	841
54	PitNETs – General Management	851
54.1	Management/treatment recommendations: PitNETs.	851
54.2	Radiation therapy for PitNETs	858

55	PitNETs – Surgical Management, Outcome, and Recurrence Management.	860
55.1	Surgical treatment for PitNET.	860
55.2	Outcome following transsphenoidal surgery.	867
55.3	Follow-up suggestions for PitNETs	869
55.4	Recurrent PitNETs	870
Other Tumors and Tumor-like Conditions		
56	Metastases to the CNS	872
56.1	Cerebral metastases	872
56.2	Spinal epidural metastases.	884
56.3	Hematopoietic tumors.	898
57	Other Tumors, Cysts, and Tumor-Like Lesions.	901
57.1	Other tumors	901
57.2	Cyst like lesions.	910
57.3	Empty sella syndrome	917
58	Pseudotumor Cerebri Syndrome (PTCS)	920
58.1	General information: PTCS	920
58.2	Pathophysiology: PTCS	921
58.3	Epidemiology: PTCS.	921
58.4	Natural history: PTCS.	921
58.5	Associated conditions: PTCS.	922
58.6	Diagnostic criteria: PTCS	923
58.7	Clinical findings: PTCS	923
58.8	Differential diagnosis: PTCS	926
58.9	Evaluation: PTCS	927
58.10	Treatment and management: PTCS.	929
59	Tumors and Tumor-Like Lesions of the Skull	935
59.1	Skull tumors	935
59.2	Non-neoplastic skull lesions	937
60	Tumors of the Spine and Spinal Cord	942
60.1	Spine tumors – general information	942
60.2	Compartmental locations of spinal tumors	942
60.3	Differential diagnosis: spine and spinal cord tumors	942

40 Contents

60.4	Intradural extramedullary spinal cord tumors.	944
60.5	Intramedullary spinal cord tumors.	947
60.6	Primary bone tumors of the spine	952

Head Trauma

61	Head Trauma – General Information, Grading, Initial Management	962
61.1	Head trauma – general information.	962
61.2	Grading: head trauma	963
61.3	Transfer of trauma patients	964
61.4	Management in E/R: head trauma	965
61.5	Radiographic evaluation of TBI in the E/R	969
61.6	Admission decisions in the E/R for TBI	975
61.7	Paroxysmal sympathetic hyperactivity (PSH)	977
61.8	Patients with associated severe systemic injuries	978
61.9	Exploratory burr holes	979
62	Concussion, High-Altitude Cerebral Edema, Cerebrovascular Injuries	983
62.1	Concussion	983
62.2	Other TBI definitions and concepts.	989
62.3	Post-traumatic hearing loss	990
62.4	High-altitude cerebral edema	991
62.5	Traumatic cervical artery dissections	991
63	Neuromonitoring in Head Trauma	998
63.1	General information: neuromonitoring	998
63.2	Intracranial pressure (ICP)	998
63.3	Adjuncts to ICP monitoring	1007
63.4	Treatment measures for elevated ICP	1008
64	Skull Fractures	1020
64.1	Types of skull fractures	1020
64.2	Linear skull fractures over the convexity	1020
64.3	Depressed skull fractures	1020
64.4	Basal skull fractures	1022
64.5	Craniofacial fractures	1024
64.6	Pneumocephalus	1025

65	Traumatic Hemorrhagic Conditions	1028
65.1	Cerebral contusion	1028
65.2	Epidural hematoma	1030
65.3	Acute subdural hematoma	1034
65.4	Chronic subdural hematoma	1039
65.5	Spontaneous subdural hematoma	1042
65.6	Traumatic subdural hygroma	1043
65.7	Extra-axial fluid collections in children	1045
65.8	Traumatic posterior fossa mass lesions	1047
66	Gunshot Wounds and Non-Missile Penetrating Brain Injuries	1049
66.1	Gunshot wounds to the head	1049
66.2	Non-missile penetrating trauma	1052
67	Pediatric Head Injury	1054
67.1	Epidemiology of pediatric head injury and comparison to adults	1054
67.2	Management: pediatric head injury	1054
67.3	Outcome: pediatric head injury	1055
67.4	Cephalhematoma	1055
67.5	Skull fractures in pediatric patients	1056
67.6	Retroclival hematoma	1057
67.7	Nonaccidental trauma (NAT)	1059
68	Head Injury – Long-Term Management, Complications, Outcome	1061
68.1	Airway management	1061
68.2	Deep-vein thrombosis (DVT) prophylaxis	1061
68.3	Nutrition in the head-injured patient	1061
68.4	Post-traumatic hydrocephalus	1063
68.5	Outcome from head trauma	1064
68.6	Late complications from traumatic brain injury	1066
Spine Trauma		
69	Spine Injuries – General Information, Neurologic Assessment, Whiplash and Sports-Related Injuries, Pediatric Spine Injuries	1072
69.1	Introduction: spine injuries	1072
69.2	Terminology: spine injuries	1072

69.3	Whiplash-associated disorders	1073
69.4	Pediatric spine injuries	1075
69.5	Cervical bracing	1078
69.6	Follow-up schedule	1079
69.7	Sports-related cervical spine injuries	1079
69.8	Neurological assessment: spine injuries	1080
69.9	Spinal cord injuries	1086
70	Management of Spinal Cord Injury	1091
70.1	Spinal trauma management – general information	1091
70.2	Management in the field: SCI	1091
70.3	Management in the hospital: SCI	1092
70.4	Radiographic evaluation and initial C-spine immobilization	1094
70.5	Traction/reduction of cervical spine injuries	1100
70.6	Timing of surgery following spinal cord injury	1103
71	Occipitoatlantoaxial Injuries (Occiput to C2)	1105
71.1	Atlantooccipital dislocation (AOD)	1105
71.2	Occipital condyle fractures	1108
71.3	Atlantoaxial (C1-2) subluxation/dislocation	1110
71.4	Atlas (C1) fractures	1114
71.5	Axis (C2) fractures	1117
71.6	Combination C1 & C2 injuries	1130
72	Subaxial (C3 through C7) Injuries / Fractures	1132
72.1	Classification systems: subaxial (C3-C7) injuries	1132
72.2	Clay shoveler's fracture	1134
72.3	Vertical compression injuries	1135
72.4	Flexion injuries of the subaxial cervical spine	1135
72.5	Distraction flexion injuries	1137
72.6	Extension injuries of the subaxial cervical spine	1143
72.7	Treatment of subaxial cervical spine fractures	1145
72.8	Spinal cord injury without radiographic abnormality (SCIWORA)	1148
73	Thoracic, Lumbar, and Sacral Spine Fractures	1150
73.1	Assessment and management of thoracolumbar fractures	1150
73.2	Surgical treatment: thoracolumbar fractures	1162
73.3	Osteoporotic spine fractures	1164
73.4	Sacral fractures	1173

74 Penetrating Spine Injuries and Long-Term Considerations of Spine Injuries 1176

- 74.1 Gunshot wounds to the spine 1176
- 74.2 Penetrating trauma to the neck 1176
- 74.3 Delayed cervical instability 1178
- 74.4 Delayed deterioration following spinal cord injuries 1178
- 74.5 Chronic management issues with spinal cord injuries 1179

Non-Traumatic Spine and Spinal Cord Conditions

75 Low Back Pain 1184

- 75.1 Low back pain – general information 1184
- 75.2 Intervertebral disc 1184
- 75.3 Clinical terms: LBP 1185
- 75.4 Disability, pain, and outcome determinations: LBP 1186
- 75.5 Differential diagnosis of low back pain 1186
- 75.6 Initial assessment of the patient with back pain 1186
- 75.7 Radiographic evaluation: initial assessment of the patient with back pain 1188
- 75.8 Electrodiagnostics for low back problems 1194
- 75.9 Psychosocial factors: LBP 1194
- 75.10 Treatment: LBP 1195
- 75.11 Chronic low back pain 1199
- 75.12 Coccydynia 1199
- 75.13 Failed back surgery syndrome 1201

76 Lumbar Disc Herniation and Radiculopathy 1206

- 76.1 General information: lumbar disc herniation and radiculopathy 1206
- 76.2 Pathophysiology: lumbar disc herniation and radiculopathy 1206
- 76.3 Herniation locations 1206
- 76.4 Clinical findings with herniated lumbar disc 1207
- 76.5 Radiographic evaluation: lumbar disc herniation 1211
- 76.6 Nonsurgical treatment: lumbar disc herniation 1211
- 76.7 Surgical treatment: lumbar disc herniation 1212
- 76.8 Herniated upper lumbar discs (levels L1–2, L2–3, and L3–4) 1219
- 76.9 Extreme lateral lumbar disc herniations 1219
- 76.10 Lumbar disc herniations in pediatrics 1222
- 76.11 Intradural disc herniation 1222
- 76.12 Intravertebral disc herniation 1222
- 76.13 Recurrent herniated lumbar disc 1223
- 76.14 Surgical treatment: recurrent herniated lumbar disc 1224
- 76.15 Spinal cord stimulation 1224

77	Thoracic Disc Herniation	1225
77.1	General information: thoracic disc herniation	1225
77.2	Evaluation: thoracic disc herniation	1225
77.3	Indications for surgery: thoracic disc herniation	1226
77.4	Surgical approaches: thoracic disc herniation	1226
77.5	Choosing the approach: thoracic disc herniation	1226
77.6	Surgical technique: thoracic disc herniation	1228
78	Cervical Disc Herniation	1234
78.1	Cervical disc herniation – general information	1234
78.2	Cervical nerve root syndromes (cervical radiculopathy)	1234
78.3	Cervical myelopathy and SCI due to cervical disc herniation	1235
78.4	Physical exam for cervical disc herniation	1236
78.5	Radiologic evaluation: HCD	1236
78.6	Treatment for cervical disc herniation	1237
79	Cervical Degenerative Disc Disease and Cervical Spinal Myelopathy	1253
79.1	Cervical disc degeneration – general information	1253
79.2	Pathophysiology: cervical degenerative disc disease	1254
79.3	Epidemiology/Natural history: cervical degenerative disc disease	1254
79.4	Clinical: cervical spondylosis	1255
79.5	Differential diagnosis: CSM	1258
79.6	Evaluation: CSM	1259
79.7	Treatment: CSM	1262
79.8	Coincident cervical and lumbar spinal stenosis	1267
79.9	Craniocervical junction and upper cervical spine abnormalities	1268
80	Spine Measurements	1270
80.1	General information: spine measurements	1270
80.2	Scoliosis measurements	1270
80.3	Sagittal plane spine measurements	1271
81	Idiopathic Scoliosis	1277
81.1	General information: idiopathic scoliosis	1277
81.2	Adolescent idiopathic scoliosis (AIS).	1277
81.3	Adult idiopathic scoliosis (AdIS)	1283

82	Lumbar and Thoracic Degenerative Disc Disease	1285
82.1	Degenerative disc disease	1285
82.2	Lumbar spinal stenosis	1286
82.3	Spondylolisthesis	1297
82.4	Juxtafacet cysts of the lumbar spine	1299

88.4	Natural history of cerebral aneurysms	1399
88.5	Presentation of cerebral aneurysms	1400
88.6	Conditions associated with aneurysms	1401
88.7	Treatment options for aneurysms	1402
88.8	Timing of aneurysm surgery	1407
88.9	General technical considerations of aneurysm surgery	1409
89	Aneurysm Type by Location	1415
89.1	Anterior communicating artery aneurysms	1415
89.2	Distal anterior cerebral artery aneurysms	1417
89.3	Posterior communicating artery aneurysms	1417
89.4	Carotid terminus (bifurcation) aneurysms	1418
89.5	Middle cerebral artery (MCA) aneurysms	1418
89.6	Cavernous carotid artery aneurysms (CCAAs)	1419
89.7	Supraclinoid aneurysms	1419
89.8	Posterior circulation aneurysms	1421
90	Special Aneurysms and Non-Aneurysmal SAH	1427
90.1	Unruptured aneurysms	1427
90.2	Multiple aneurysms	1431
90.3	Familial aneurysms	1431
90.4	Traumatic aneurysms	1432

90.5	Mycotic aneurysms	1433
90.6	Giant aneurysms	1434
90.7	Cortical subarachnoid hemorrhage.	1435
90.8	SAH of unknown etiology.	1435
90.9	Pretruncal nonaneurysmal SAH (PNSAH).	1437

Vascular Malformations

91	Vascular Malformations	1442
91.1	Vascular malformations – general information and classification	1442
91.2	Arteriovenous malformation (AVM)	1442
91.3	Developmental venous anomaly (DVA) (venous angioma)	1450
91.4	Dural arteriovenous fistulas (DAVF)	1452
91.5	Vein of Galen malformation	1456
91.6	Carotid-cavernous fistula	1457
91.7	Sigmoid sinus diverticulum	1459
92	Angiographically Occult Vascular Malformations	1461
92.1	General information	1461
92.2	Osler-Weber-Rendu syndrome	1461
92.3	Cavernous malformation	1462

Ischemic Stroke and Occlusive Cerebrovascular Disease

93	Ischemic Stroke – General Information and Physiology	1472
93.1	Definitions: ischemic stroke	1472
93.2	Epidemiology: ischemic stroke	1472
93.3	Cerebrovascular hemodynamics	1472
93.4	Collateral circulation	1473
93.5	“Occlusion” syndromes	1474
93.6	Stroke in young adults	1477
93.7	Atherosclerotic carotid artery disease.	1479
94	Evaluation and Treatment for Acute Ischemic Stroke (AIS)	1487
94.1	Stroke management – general information (time = brain)	1487
94.2	Rapid initial evaluation/management: AIS.	1487
94.3	NIH stroke scale (NIHSS).	1488
94.4	General management for acute ischemic stroke (AIS)	1491
94.5	Imaging in acute ischemic stroke (AIS)	1493
94.6	Management of TIA or stroke	1497
94.7	Carotid endarterectomy.	1502

94.8	Carotid angioplasty/stenting	1509
95	Cerebral Arterial Dissections	1511
95.1	General information: cerebral arterial dissections	1511
95.2	Nomenclature: cerebral arterial dissections	1511
95.3	Pathophysiology: cerebral arterial dissections	1511
95.4	Epidemiology: cerebral arterial dissections	1512
95.5	Sites of dissection: cerebral arterial dissections	1512
95.6	Clinical: cerebral arterial dissections	1512
95.7	Evaluation: cerebral arterial dissections	1513
95.8	Overall outcome: cerebral arterial dissections	1513
95.9	Internal carotid dissection	1513
95.10	Vertebrobasilar system artery dissection	1514
95.11	Vertebrobasilar system dissections excluding the VA	1515
96	Moyamoya Disease	1517
96.1	General information: moyamoya disease	1517
96.2	Pathophysiology: moyamoya disease	1517
96.3	Primary vs. secondary moyamoya	1517
96.4	Associated aneurysms: moyamoya disease	1518
96.5	Epidemiology: moyamoya disease	1518
96.6	Presentation: moyamoya disease	1519
96.7	Natural history: moyamoya disease	1519
96.8	Diagnostic criteria: moyamoya disease	1519
96.9	Evaluation: MMS	1520
96.10	Treatment: moyamoya disease	1521
97	Other Vascular Occlusive Conditions	1524
97.1	Totally occluded internal carotid artery	1524
97.2	Cerebellar infarction	1525
97.3	Malignant middle cerebral artery territory infarction	1526
97.4	Cardiogenic brain embolism	1527
97.5	Vertebrobasilar insufficiency	1528
97.6	Bow hunter's stroke	1530
97.7	Cerebral venous thrombosis	1531
97.8	Extracranial-intracranial (EC/IC) bypass	1538
	Intracerebral Hemorrhage	
98	Intracerebral Hemorrhage in Older Adults	1542
98.1	Intracerebral hemorrhage – general information	1542

98.2	Epidemiology: ICH in older adults	1543
98.3	Locations of hemorrhage within the brain.	1544
98.4	Etiologies: ICH in older adults.	1544
98.5	Clinical information: ICH in older adults	1549
98.6	Imaging: ICH in older adults	1551
98.7	Initial management of ICH	1554
98.8	Ventriculostomy (IVC) with ICH	1561
98.9	Surgical treatment: ICH	1561
98.10	Outcome: ICH	1566

99 ICH in Young Adults and Pediatrics 1567

99.1	ICH in young adults	1567
99.2	Germinal matrix hemorrhage in the newborn	1567

Outcome Assessment

100 Outcome Assessment 1578

100.1	Cancer	1578
100.2	Head injury	1578
100.3	Cerebrovascular events	1578
100.4	Spinal cord injury	1580

Differential Diagnosis

101 Differential Diagnosis by Location or Radiographic Finding – Intracranial 1584

101.1	Diagnoses covered outside this chapter	1584
101.2	Posterior fossa lesions	1584
101.3	Multiple intracranial lesions on CT or MRI	1588
101.4	Ring-enhancing lesions on CT/MRI	1589
101.5	White matter lesions	1590
101.6	Sellar, suprasellar, and parasellar lesions.	1591
101.7	Intracranial cysts	1594
101.8	Orbital lesions	1596
101.9	Dural sinus lesions.	1597
101.10	Cavernous sinus lesions	1597
101.11	Meckel's cave abnormalities.	1598
101.12	Skull lesions	1599
101.13	Other abnormalities of the skull	1603
101.14	Combined intracranial/extracranial lesions	1603
101.15	Intracranial hyperdensities	1603

50 Contents

101.16	Intracranial calcifications	1604
101.17	Intraventricular lesions	1605
101.18	Periventricular lesions	1608
101.19	Meningeal thickening/enhancement	1609
101.20	Ependymal and subependymal enhancement	1609
101.21	Intraventricular hemorrhage	1610
101.22	Medial temporal lobe lesions	1610
101.23	Basal ganglion abnormalities	1611
101.24	Thalamic lesions	1611
101.25	Intranasal/intracranial lesions	1612
102	Differential Diagnosis by Location or Radiographic Finding – Spine	1614
102.1	Diagnoses covered outside this chapter	1614
102.2	Atlantoaxial subluxation	1614
102.3	Abnormalities in vertebral bodies	1614
102.4	Axis (C2) vertebra lesions	1615
102.5	Pathologic fractures of the spine	1616
102.6	Spinal epidural masses	1617
102.7	Destructive lesions of the spine	1617
102.8	Vertebral hyperostosis	1617
102.9	Sacral lesions	1618
102.10	Enhancing nerve roots	1618
102.11	Nodular enhancing lesions in the spinal canal	1619
102.12	Intraspinal cysts	1619
102.13	Diffuse enhancement of nerve roots/cauda equina	1619
103	Differential Diagnosis (DDx) by Signs and Symptoms – Primarily Intracranial	1620
103.1	Diagnoses covered outside this chapter	1620
103.2	Encephalopathy	1620
103.3	Syncope and apoplexy	1621
103.4	Transient neurologic deficit	1622
103.5	Ataxia/balance difficulties	1623
103.6	Wide-based gait	1623
103.7	Diplopia	1624
103.8	Anosmia	1624
103.9	Multiple cranial nerve palsies (cranial neuropathies)	1624
103.10	Binocular blindness	1626
103.11	Monocular blindness	1627
103.12	Exophthalmos	1627

103.13	Ptosis	1628
103.14	Pathologic lid retraction	1628
103.15	Macrocephaly	1628
103.16	Tinnitus.	1629
103.17	Facial sensory changes	1630
103.18	Language disturbance	1631

104 Differential Diagnosis (DDx) by Signs and Symptoms – Primarily Spine and Other 1632

104.1	Diagnoses covered outside this chapter	1632
104.2	Myelopathy.	1632
104.3	Sciatica	1636
104.4	Acute paraplegia or quadriplegia	1638
104.5	Hemiparesis or hemiplegia.	1639
104.6	Ascending paralysis	1640
104.7	Descending paralysis	1640
104.8	Low back pain	1640
104.9	Foot drop	1642
104.10	Weakness/atrophy of the hands/UEs.	1645
104.11	Radiculopathy, upper extremity (cervical).	1646
104.12	Neck pain (cervical pain)	1646
104.13	Burning hands/feet	1647
104.14	Glove/stocking sensory disturbance	1647
104.15	Winging of the scapula	1648
104.16	Muscle pain/tenderness	1648
104.17	Lhermitte's sign	1649
104.18	Swallowing difficulties	1649

Procedures, Interventions, Operations

105 Intraoperative Dyes, O.R. Equipment, Surgical Hemostasis, and Bone Extenders. 1652

105.1	Introduction	1652
105.2	Intraoperative dyes	1652
105.3	Operating room equipment	1654
105.4	Surgical hemostasis	1656
105.5	Dural substitutes	1657
105.6	Localizing levels in spine surgery	1657
105.7	Bone graft.	1660

106	Craniotomies – General Information and Cortical Mapping	1666
106.1	Craniotomy – general information	1666
106.2	Intraoperative cortical mapping (brain mapping)	1669
107	Posterior Fossa Craniotomies	1674
107.1	Indications: posterior fossa craniotomies	1674
107.2	Position: posterior fossa craniotomies	1674
107.3	Paramedian suboccipital craniectomy	1677
107.4	Midline suboccipital craniectomy.	1679
107.5	Extreme lateral posterior fossa approach	1681
107.6	Cranioplasty for suboccipital craniectomy	1681
107.7	Post-op considerations for p-fossa craniotomies	1681
108	Supratentorial Craniotomies	1684
108.1	Pterional craniotomy	1684
108.2	Temporal craniotomy	1687
108.3	Frontal craniotomy	1690
108.4	Petrosal craniotomy	1691
108.5	Occipital craniotomy.	1692
109	Approaches to the Lateral and Third Ventricles, Decompressive Craniectomies, and Cranioplasty	1693
109.1	Approaches to the lateral ventricle	1693
109.2	Approaches to the third ventricle.	1693
109.3	Interhemispheric approach	1698
109.4	Cranioplasty	1698
109.5	Decompressive craniectomy (DC).	1701
110	Spine, Cervical	1706
110.1	Anterior approaches to the cervical spine.	1706
110.2	Transoral approach to anterior craniocervical junction	1706
110.3	Occipitocervical fusion	1708
110.4	Anterior odontoid screw fixation (OSF)	1710
110.5	Atlantoaxial fusion (C1–2 arthrodesis)	1713
110.6	C2 posterior screws	1719
110.7	C3–6 fixation	1725
110.8	C7 screws.	1726
110.9	Cervical laminoplasty	1727
110.10	Anterior cervical vertebral body screw-plate fixation	1727
110.11	Zero profile interbody devices	1727

111	Spine, Thoracic and Lumbar	1729
111.1	Anterior access to the thoracic spine	1729
111.2	Thoracic pedicle screws	1730
111.3	Uniform entry points for freehand pedicle screws	1734
111.4	Anterior access to the lumbar spine	1734
