Foreword to the Second Edition	vii
Foreword to the First Edition	viii
Preface	ix
Acknowledgments	x
List of Abbreviations	xi
<b>Section 1: Advanced Paediatric Life Support (APLS) Algorithms</b>	<b>1</b>
Asystole and PEA Management	2
VF / Pulseless VT Management	3
VT Management	4
Bradycardia Management	5
SVT Management	6
<b>Section 2: Paediatric Resuscitation &amp; Emergency Medication Protocols</b>	<b>7</b>
PREM Triangle: Decision Making Tool for Resuscitation	8
PREM Triangle: Recognition of Relative Bradypnea, Relative Bradycardia & Relative Hypotension	9
Triage & Resuscitate Using PREM Triangles	10
Management of Acute Stridor Based on Severity and Etiology	12
Recognizing Aetiology and Severity of Hypoxia and Shock for Children Presenting with Fever and Acute Respiratory Distress	13
Triage Questions to Establish Aetiology of Respiratory Distress	14
Management of Acute Exacerbation of Asthma	15
Management of Shock with Respiratory Distress and Cardiac Dysfunction (CD)	16
Recognition of Sepsis Induced Organ Dysfunction in Children Presenting with Febrile Illness	17
Management of Vasodilatory Septic Shock with Cardiac Dysfunction and Pulmonary Oedema	18
Recognition and Fluid Resuscitation of Diarrhoea Based on the Severity of Dehydration and Shock	19
Dengue—Recognition of Severity	20
Dengue—Management Based on Severity	21
Management of Status Epilepticus with Hypoxia & Vasodilatory Cardiogenic Shock	22
Approach to Abnormal Movements with Decreased Level of Consciousness	23
Approach to Snake Bite	24
Management of Scorpion Sting	25

---

Button Battery Ingestion	26
<b>Section 3: Algorithms for the Management of Electrolyte Disturbances</b>	<b>27</b>
Hyponatraemia	28
Hypernatraemia	29
Hypokalaemia	30
Hyperkalaemia	32
Hypocalcaemia	33
Hypercalcaemia	34
<b>Section 4: Weight-Based Medication Doses</b>	<b>35</b>
<b>Paediatric Resuscitation &amp; Emergency Medicine Case Record</b>	<b>93</b>
<b>References</b>	<b>95</b>
